## CALFED BAY-DELTA PROGRAM

### Office Memorandum

**Date:** December 18, 1995

**To:** Dick Daniel  
Rick Soehren  
Rick Breitenbach  
Sharon Gross  
Judy Kelly  
Victor Pacheco

**From:** Steve Yaeger 

**Subject:** Core Action List

---

Attached is a refined list of core actions that the consultant team proposed to use in building alternatives. They have also shown an estimate of the level of implementation of the core action and some narrative which describes what the focus of the action is. Core actions have been identified in all four conflict areas, however, to reduce the burden on the reviewers, I have attached only the conflict areas most directly related to your area of interest. If you wish to review all four sets please see me.

I would like to get your comments on the appropriateness of each core action and the level of implementation by COB on Friday, December 22, if at all possible.
